

I am writing to comment about Klove radio stations and the problem of it being displaced by an LPFM broadcaster providing other programming. Klove is very important to me at home - in Illinois. It gives updates of local happenings and news of world importance.

I believe Klove serves a great public interest because I listen to Klove as I travel in America! It is great to hear the love of God on my radio as I travel! I am amazed to hear John and Sherry in the morning - no matter what city I'm in! The other folk encourage me all day long. I want to keep the family safe airwaves. I want to preserve the service I value not have it replaced by an LPFM station.
